Likely Today Report Ration On Some Meats Will Be Lifted

By CHESTER BLOOM
Edmonton Bulletin Ottawa Bureau
OTTAWA, Sept. 20.—The Bulletin has learned from an official source that Hon. J. L. Hellyer, minister of finance, probably will announce in the House this afternoon that the government will remove from rationing such fresh meats as liver, tongue, tripe, sausage and some lines of cooked meats.

Instead, however, according to this information, such meats will be rationed at the processing level—that is to say, retail dealers will be allowed certain quotas of such meats. After they have sold their quota, they will get no more for a fixed period.

All other meats will continue to be coupon rationed, according to The Bulletin information.

WONT REMOVE RATION

The retail meat dealers' delegation assembled from all sections of Canada by the Retail Merchants' Association are convinced now that the government will not remove rationing in favor of rationing by coupons for meat. They have derived this conclusion from statements made in several cities by men with Mr. Hellyer and members of the War-time Prices and Trade Board.

The Retail Merchants' Association also issued a statement continuing on page 2, Col. 3.

LONDON, Sept. 20.—(BUP)—The London Evening News said today that Foreign Minister V. M. Molotov had "secured from the western powers" a general statement of the Soviet Union's status as a colonial power in the Mediterranean.

A dispatch by the New York diplomatic correspondent said Molotov was on the Yugoslav frontier withdrawing Russian support for the Yugoslav claim to Trieste.

As reported by the newspaper without confirmation by any other source, the United States and Britain also recognized Russia's "right to be interested in the future of Italy's former North African colonies."

Of Chinese Factions

CHUNGKING, Sept. 20.—(AP)—The authoritative Chungking Kuang Pao reported today that the Chinese government and Communist regulators were pledged to the principle of peaceful reconstruction of unified China under the leadership of Generalissimo Chiang Kai-shek with equal participation from the leading political parties.

The newspaper said "a certain agreement" had been reached and that its principal point called for an all-party conference to plan peace and reconstruction as well as participation in the government "of all parties and groups."

To realize the reconstruction of a national government, a political conference of all parties and non-partisan groups will be called.

The conference will promulgate a general program for peace and national reconstruction and regulations for participation in the government by all parties and groups.

Alberta Liquor Board Profits Hit New Peak

55,857,202 Total

OTTAWA, Sept. 20.—Heads of families are having their income tax increased at present because of family allowance payments made for children, and it has been suggested that since the payments in many cases are made to the mother, the father should not have his income tax increased. The stand the fathers are taking is that they do not receive the family allowance income.

Explanation for increasing the tax on the father was given Thursday by Finance Minister J. L. Hellyer. The father, if an income tax payer, has also had his tax reduced through tax exemptions by the children on this basis, and the mother receives cash payments for the same children, then there will be a duplication of benefits for the same children.

REDUCES DEPENDENCE

Mr. Hellyer said that when the government makes cash payments to children, those made to the mother rather than to the father reduce the dependence of the children on the father. Accordingly, it removes the justification for the benefit, although these payments may not have gone directly to the father.

Complete Policy to Enforce Tough Peace' on Nipponese

From CP, AP and British UP Dispatches

WASHINGTON, Sept. 20.—The United States has completed a long-range occupation policy for Japan calling for elimination of heavy industries, rigid control over the powerful Bank of Japan and steps to better the lot of the Japanese masses, it was learned today.

A special embassy may soon be sent from Washington to confer with Gen. MacArthur on enforcement of long-range peace controls in Japan.

DIVERGENT POLICIES

This was learned as it appeared that various divergencies in policy were cropping up between what Washington contemplates in the way of tough peace for Japan and what the Allied command headquarters in the islands actually are doing.

One of the latest examples in the approval granted the Japanese to operate various airplane trips between their principal islands, the American policy of expediting administration of the islands, Washington policy called for no air operations by the Japanese.

An informed source said the command headquarters in the islands, social structure would be maintained "for an indefinite period" and leave no doubt that "we are the government."

The new directive was dispatched to the Japanese government several days after approval by the joint chiefs Continued on page 2, Col. 6.

Report Strike Of Bricklayers Is Now Settled

The three-week old strike of bricklayers in Edmonton has been settled, and it is expected that they will be back at work on Friday morning.

A directive was issued Thursday by the Regional War Labor Board on the application of the Bricklayers, Masons and Plasterers, Tile Setters and Terrazzo Union, No. 1, to the Edmonton General Contractors Association in connection with the dispute over the inclusion of bricklayers on a project for a new building.

TEXT OF CLAUSE

The directive reads: "That in the Edmonton General Contractors Association, the Bricklayers, Masons and Plasterers, Tile Setters and Terrazzo Union, No. 1, Edmonton, to work of the latter's trade beyond a ten-mile radius of Edmonton, within a period up to April 1, 1946, he shall provide such employee board and working in connection with such employment, in addition to the prevailing rate of wages in Edmonton and all other expenses previously agreed upon."

USED AS BARRACKS

The Dominion government took over the building early in the war and turned it over to the United States Army as barracks and quarters. It was one of the main buildings the Americans constructed a large number of the buildings on the grounds as well as considerable storage space for army equipment, and the building was used as barracks for the troops.

granted leave of absence by his congregation at the Highlands United Church. Members of his church are expecting his return within the next few days. His wife, Mrs. Marion Davies and two sons, Richard, 13, and Leigh, 11, live at the church parsonage, 11317 44 street. He was wounded during the terrible fighting in the Cameron Highlands last year.

His citation, in full states: "This officer landed in France with the Queen's Own Cameron Highlanders of Canada, July 8, 1945, and, except for a short period of hospitalization as a result of wounds, has remained with it. During this time Capt. Davies has taken every opportunity to visit the forward company and platoon positions, encouraging and heartening the men. This has often been achieved only by considerable personal risk not only from long range but also from small arms fire.

UNDER HEAVY FIRE

In March, 1945, at Veldhoven, Holland, headquarters came under heavy and accurate mortar fire, causing casualties and damage. Capt. Davies visited the wounded and gave all assistance possible to the medical officer, while the mortaring was taking place. It was the fact that he was incurring very great personal risk and that ample proof was available to his superiors in the vicinity.

Early in April the battalion was attacking west of Zutphen in Holland. Two companies were advanced across a canal and across a foot bridge on which the enemy was bringing counter-attacks. Capt. Davies was the first to be observed by snipers and several men were killed by machine guns and mortars. He gave quick aid to the wounded and by his cheerful presence and coolness under the most trying fire, inspired the troops to continue the crossing and to resist ammunition and supplies to the other side. Capt. Davies, throughout his service with the Queen's Own Cameron Highlanders of Canada, has not only been the spiritual adviser of the men but a companion and friend of all ranks. His devotion to duty, courage and leadership under adverse conditions has been fully recognized by his superiors and respect of both men and officers of the regiment.

PUBLISHED NEWSPAPER

Lt. Charles Harold Conquest of Alhambra, had assisted his father, the late Charles Conquest, in publishing Alhambra's only newspaper, The Echo, and had taught him in that district during his enlistment in March, 1941. He rose to commissioned rank by July 1942, and one month after leaving officers' training center was despatched overseas. His war record, as Lt. Conquest, lives with his three children in Alhambra.

This gallant aviator's mother, Mrs. W. Conquest, OBE, known to thousands of radio listeners as the "Red Cross Radio Girl," did not know of the award won by her son until notified by The Edmonton Bulletin. "I am more than thrilled and so happy," she said.

His citation states: "Lt. Conquest, a forward observation officer of the 1st Field Regiment (SP) was attached to "B" Company, Late Superior Regiment (Motor), April 26, 1945. At 12 noon the force came up against what appeared to be a line of enemy positions. The line was ambushed them from dug-in positions less than 200 yards from the front. The forward platoon commander ordered an attack on the left flank which was successful to start and then was subjected to extremely heavy, concentrated mortar fire which halted the attack and put our troops to ground. The attacking platoon was then ordered to the mortar's positions and a stalemate developed.

LEFT TANK SHELTER

Lt. Conquest, safe from the mortaring in his tank, saw the development, clambered out of his tank and standing in full view of the enemy, fired his battery, corrected and fired again and completely silenced the enemy mortars. All this time he was completely exposed and showed utter contempt for the efforts of the enemy to hit him.

As a direct result of Lt. Conquest's prompt action the mortar fire was able to re-organize and press home the attack and the enemy were either captured or withdrawn in confusion and the advance of the Canadian Armored Brigade continued. This officer's complete disregard for his personal safety and his utter contempt for the enemy's efforts in the heat of the action were an inspiration to all and will long remain an example of personal bravery.

FROM THORSBY

Cpl. Robert Julius Arndt, DCM, Royal Canadian Armored Corps, was born on Jan. 4, 1920, in the USA, but at the time of his enlistment in the Canadian Army a resident on April 22, 1943, was farming at Leduc. His mother, Mrs. Clara Arndt, lives at Rte. No. 2, Thorsby, Co. George Arndt.

His citation reads in part: On April 29, 1945, Cpl. Arndt was commanding a section in "A" Company the Perth Regiment. The company was engaged in a night attack on a very strong enemy position.

When the leading troops of the company reached a point approximately 100 yards from the southern edge of the village, a strong belt of wire was encountered and the enemy in a line 100 yards distant opened fire.

Cpl. Arndt's section was ordered

used his work in a most satisfactory manner.

AS INFANTRY

Early in April 1943 this anti-tank battery was for the first time deployed overseas. On this occasion Sgt. Preston commanded his troop in the absence of his troop commander.

Sgt. Preston attended to these responsible tasks cheerfully and carefully, personally acting as a patrol leader over the more difficult patrols. During these patrols under fire, he obtained much needed information concerning the enemy.

WAS CARPENTER

Sergeant Vernon Arthur Salisbury, MM, was born July 4, 1919, at Maple Creek, Sask. Prior to his enlistment, Aug. 6, 1940, he was a carpenter at Cold Lake. He proceeded to the front lines in 1942 and served with the 28th Armored Regiment. His father, G. E. Salisbury, resides at 12914 63 street, Edmonton.

On April 21, 1945, Sgt. Salisbury was troop sergeant of No. 4 Troop, "A" Squadron, 28 Canadian Armored Regiment, during the operations in the area immediately north of Kisten Canal, Germany. "A" Squadron was under command of the Argyl and Sutherland Highlanders of Canada, No. 4 Troop supporting "B" Company, and had succeeded against strong resistance in working forward some few hundred yards.

CMOR, HURT

By shooting up spotted enemy positions and houses, and despite the deplorable condition of the road, he was able to advance on a few blown bridges. Here the opposition was extremely heavy and the infantry were unable to get across the obstacle. Sgt. Salisbury, appreciating that the power of two tanks was necessary to adequately cover the infantry, ordered his tank to come up into position opposite him.

As communications were unsatisfactory, he guided the other forward on foot.

He then manoeuvred it away from the burning tank and continued to fight. He spent the night there alone, obtaining essential ammunition from his officer's tank which was lying disabled nearby. All communications with his squadron headquarters being severed and the condition of the road making it impossible to get supplies up to his tank.

BORN AT CHERHILL

Lt. Col. Walter Bruce Cairns, MM, Royal Winnipeg Rifles, was born at Cherrhill in September, 1905. He was a farmer there when he joined the army in 1928. He was overseas the following October, and served in the northwest European theatre with the Royal Winnipeg Rifles. He returned to Canada July 11, 1945.

His mother, Mrs. Alma Cairns, resides at Cherrhill. His citation reads, in part: "On April 26, 1945, Lt. Col. Cairns was given the task of entering the town from the north, while "D" Company approached from the southwest. Before "B" Company could get into the town it was necessary to clear a group of farm buildings which were situated on the only accessible road.

Lt. Col. Cairns, in command of the "D" Company, was the first to enter the town.

LED IN ADVANCE

His citation, in part, reads: "During the advance from Arnhem to the Zaltbommel area in April, 1945, Sgt. Fuller of 10 Canadian Field Squadron, with great determination and devotion to duty, led detachments under his command in support of 5 Canadian Armored Brigade.

During the operations in the vicinity of Weirwerd near the port of Delfzijl when his detachment was engaged in April, 1945, Sgt. Fuller of 10 Canadian Field Squadron, with great determination and devotion to duty, led detachments under his command in support of 5 Canadian Armored Brigade.

A GUNNER

Sgt. J. W. Preston, who was born and educated in Saskatchewan, enlisted in Saskatoon as a gunner in the Royal Canadian artillery in February 1941. His father, Robert Preston, now employed as an electrician, moved here more than two years ago. He lives at 11144 87 avenue.

Sgt. Preston's citation follows in part: This non-commissioned officer led a troop sergeant in 312 anti-tank battery, 7 Canadian Anti-tank regiment. At all times he has carried out his work in a most satisfactory manner.

member from Charlottesville-Sagehen constituency in Quebec, that the government grant amnesty to army deserters and draft dodgers. You the war was over, he said, no longer should there be prosecution against men who disobeyed a law made when the war was at its height.

WHEAT POLICY

Trade Minister Mackinnon announced the government's wheat policy for the coming years which involves holding the export price to \$13.55 per bushel, but guaranteeing producers not less than \$1 a bushel for the next five years.

Finance Minister Isley, questioned about the budget, said he would bring it down as soon as possible. Three members, G. Belive (L.-Berthier), R. S. Moore (L.-Berthier) and Wing Cmdr. Lawrence Skay (PC-Toronto Trinity), urged the government to consider the threat posed by the present government's policy.

Mr. Moore referred to the Atlantic Charter's pledge of equal access for all peoples to the raw materials of the world and the raising of the standards of living of all peoples. "These are noble sentiments and this government cannot subscribe to them and maintain the capitalist system," he said.

Poverty and unemployment were essential to the efficient working of the capitalist system. Only through socialism could they be eliminated and without socialism there would be another depression with mass unemployment.

URGES U.S. SYSTEM

He personally felt that if Canada ever again became engaged in a total war where universal service was resorted to by the government of the day it should be done by something like the American system under which the millionaire and the pauper, the sons of the president and of the laborer, the influential or the insignificant, the republican or the demagogue are called by number and treated on the same footing.

India Is Told Own Government Is Forthcoming

LONDON, Sept. 26.—(CP)—Prime Minister Attlee told the people of India first night that positive steps would be taken immediately after the forthcoming Indian elections to give them the right to elect their own government.

He spoke by radio to both India and Great Britain, amplifying on a radio broadcast made in New Delhi on Sept. 25, when he addressed the Indian cabinet.

He spoke by radio to both India and Great Britain, amplifying on a radio broadcast made in New Delhi on Sept. 25, when he addressed the Indian cabinet.

NAMES FIRST STEP

The first step necessary, he said, was to get a new constitution as democratic a representation of the Indian people as possible.

The prime minister said his new government was prepared to accept the Indian people's choice of the self-government formula which Sir Stafford Cripps made in India in 1945 and which India rejected.

For Stafford's proposal was that a federal union of provinces constituting a dominion equal in many respects to other British dominions, and that steps be taken after the war to set up an elective body charged with framing a new constitution.

Lord Wavell, speaking from Delhi on the All-India radio, said he had been authorized to convey the government's proposals to the Indian people and to ask whether the Cripps offer was acceptable now or whether some alternative modified scheme is preferred.

It was only one of a number of steps towards the new constitution.

ATLANTIC CHARTER PLEDGE

Mr. Moore referred to the Atlantic Charter's pledge of equal access for all peoples to the raw materials of the world and the raising of the standards of living of all peoples.

Poverty and unemployment were essential to the efficient working of the capitalist system. Only through socialism could they be eliminated and without socialism there would be another depression with mass unemployment.

URGES U.S. SYSTEM

He personally felt that if Canada ever again became engaged in a total war where universal service was resorted to by the government of the day it should be done by something like the American system under which the millionaire and the pauper, the sons of the president and of the laborer, the influential or the insignificant, the republican or the demagogue are called by number and treated on the same footing.

Mr. Heuch recommended proposals for a distinctive Canadian flag and Canadian nationality made in the course of the debate.

of the leading section, had successfully cleared up the position from this obstacle when he was forced to take cover from the fire of determined enemy at one point. Rather than hold up the advance of the main body upon the town while he went back for assistance he positioned his men so that they could give covering fire and take advantage of the success of his scheme.

Now science offers you an easy, efficacious way to keep your kitchen free of household odors. It's called air-wick whenever you cook onions, broccoli, cabbage, fish, bacon or any other foods that produce unpleasant cooking odors.

Here's how it works: air-wick contains activated Chlorophyll—the substance nature stores up in grass, trees and growing greenery. It scientifically duplicates nature's way of making air "country-fresh". All you have to do is unscrew the cap and push up the wick. Air-wick eliminates all disagreeable odors quickly.

Use air-wick all over the house. Use it to kill bathroom, smoking and other unpleasant odors. To keep your clothes "fresh" use it freely, you can afford to... for air-wick costs only a cent or so a day to use. Try it now, you'll be amazed! For a list of drug, grocery, variety, hardware, chain and department stores.

If air-wick isn't available at your favorite store, write to the nearest Canadian Pacific Air Lines office. It may be several weeks before we can supply everybody.

SPORTS EDITOR

PILL HANSEN, president of the Foothills Baseball League, although perhaps inadvertently, really started something with the announcement that Currie Army would commence a series with Winnipeg for the western Canada championship in Calgary on Friday night.

Currie, of course, at that time (Tuesday) held a 3-2 margin in the Alberta title picture and everything would have been hunky dory had the sixth game been played on schedule and resulted in a Calgary win.

But even weather man turned against Mr. Hansen and to now he has just about everybody on his neck. Edmonton fans don't like it and neither do the Yanks, who feel their present Edmonton—which they must certainly do.

Even Charlie Lewis was put on the spot, but he rose nobly to the occasion with, "If we beat Edmonton we will play anybody, but first we must be Alberta champions." Charlie, however, feels the series should be an "all-Canadian" affair, but just why, is not explaining.

"NO TITLE BY DEFAULT"
CAPT. RAY ARBO's reaction is that Edmonton has a right to be represented and that as Yanks were bona-fide members of the Edmonton senior league, they are the city title, they must fit somewhere into the picture when western championships are being considered.

There was no reservation in the Calgary press room as to the effect that the "western play-off" would be a strictly Canadian affair and there were no hints as to how it has suggested—how about Vancouver? And there are

Lift Restrictions On Pro Pucksters Going Into States

OTTAWA, Sept. 26.—(CP)—National Hockey League, director of National Selection Service, announced today that no restriction on Canadians wishing to play professional hockey with teams in the United States will be in force this year.

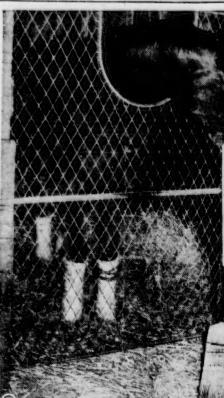

Mr. McNamara also announced that a memorandum has been sent to all professional hockey clubs in the United States and to the National Hockey League, asking them to make every effort to facilitate the speedy release of professional hockey players from the United States who are at present posted in Canada, to play professional hockey in Canada or the United States.

(A conflicting joint statement by the three armed services in Ottawa today lifted the ban on service men participation in civilian sport, and declared that they would facilitate this participation.)

The memorandum to the committees of the National Hockey League and to the National Hockey League also was a letter of appreciation to the young men who have been in the armed services in the past year.

The director of National Selection Service, Mr. McNamara, expressed the view that application by hockey clubs for release of young men in the armed services should be not only readily accepted, but actively encouraged.

Mr. McNamara said that while it will be necessary to have hockey players to obtain leave from the National Hockey League, the employment offices have been advised to issue these permits promptly on application.

Currie Mullen, veteran hockey player, will coach Edmonton seniors.

Toronto Acquires Talented Winner

TORONTO, Sept. 26.—(CP)—talent scout George Walker has spotted Toronto Maple Leafs have acquired a rookie who will set the National Hockey League alive. Joe Bonagura of Winnipeg recently acquired by the Toronto Maple Leafs.

"Joe Bonagura more color than a skating rink," said Walker, who is a scout for the Toronto Maple Leafs. "He is a real winner, a good backstopper and a good leader. He will be a real asset to the team."

Is Already On Prowl For Talent

RULEY MULLEN, veteran hockey player, is already on the prowl for talent. Mullen, who is a coach of the Edmonton entry in the newly organized Western Canada Senior Hockey League and already is at work.

In announcing the appointment on Wednesday, L. A. (Lefty) Grove, chairman of the Exhibition Association's hockey committee, stated that Mullen had been given full authority to go out and build a club which would take over the Edmonton franchise in the new inter-provincial circuit.

The new league, according to Chairman Grove, is definitely comprised of four clubs—Edmonton, Calgary, Regina and Winnipeg—and will commence the season's play on Nov. 1. A meeting to settle final details will be held in Calgary on Oct. 21.

Mullen stated last night he would be "playing" in the new league. "I'm not as young as I used to be and I intend to play, but my intention is running the league," he said. "I have been already was on the lookout for talent and possibly would pay a salary to the players in the new league."

Trainers expected to get under way at the Arena around Oct. 1, which will give a full month to prep for the opening season. League games have been determined, and it is understood Saturday is likely to be one of a possible two-day game, with the first game scheduled for Saturday night.

Tigers' Lead Cut

Feller Blanks Detroit 2-0

On One-Hit Pitching Effort

CLEVELAND, Sept. 26.—(AP)—One little Texan League single into right field was all that kept Bob Feller from making a second appearance among baseball's no-hit pitchers Wednesday, as he hurled Cleveland Indians to a 2-0 victory over Detroit in the Tigers' American League lead over Washington Senators to one game.

Jimmy Outlin's blower in short right in the fifth inning was the only safety, registered off Robert Rapier as he heaved his fourth victory since being discharged from the Navy late last year. The two teams met in a series the winner's take was \$85,441.88, which still stands as the highest in the history of the game.

Naturally the individual shares do not necessarily reflect the size of the players' pool, but the individual takes give a hint of the total. In the two games, the Indians invariably reflect the size of the parks. In the first game, the Indians won the game, and the Cardinals won the game.

Some of the men also probably have a fair recollection that the Indians won the game, and the Cardinals won the game. In the first game, the Indians won the game, and the Cardinals won the game.

Neil Colville, NHL Star

To Re-Join N.Y. Rangers

WHEN PRESIDENT MERVIN "Red" Dutton swings his National Hockey League doors open to the public on October 24, a new peace-time schedule will begin. Familiar faces will be seen on the ice, and down the ice lanes in the world's fastest hockey loop.

Among the stars being welcomed back to the ice is Neil Colville, one of the greatest players from junior hockey in Edmonton and who has been added to making many All-Star teams. Frank McKee even listed him in the "Hockey News" as one of the famous pucksters of his time.

Despite rumors drifting this way from the east earlier on in the summer to the effect that he would be maintaining a club in Ottawa, Neil said last night that he is going back with the Rangers. He is leaving here the early part of next month, and will be training camp with the Rangers in Winnipeg on October 10.

Meeting Plans Welcome Home For City Units

Crystallizing plans for the welcome home of city units expected to arrive in Edmonton in October the civic welcome committee met in the Civic Block Wednesday to decide on final arrangements. Full details will not be released until official information is received of the dates and time when the units will arrive.

Plans include the decorating of downtown streets of the city, under arrangements being made by Aid. Sid Parsons. There will be a short parade past a saluting base on 101 street, and a brief halt on the Market square where the returning troops will listen to brief addresses from His Honor Lt.-Gov. J. C.

Bowen, Premier Ernest Manning, and Mayor John W. Fry. Then the troops will return to the station, pick up their baggage and go on leave.

ARRANGE ACCOMMODATION
Arrangements are being made by

the Salvation Army to have automobiles to place at the disposal of the troops. Reg. Rose will be in charge of a committee to arrange accommodation for those who require it. Details of the accommodation plan will be released at an early date.

Canadian Legion officials have offered the use of the Memorial Hall to the auxiliaries of returning units on the evening unit

Liaison officers from the auxiliaries will travel east to meet units at the port of arrival and complete arrangements during the trip west.

DOROTHY DIX SAYS—

Pre-Nuptial Confession Will Wreck Institution

Plan Is Theoretically Correct: Honest Thing to Do Is For Prospective Bridal Couples to Lay Cards On the Table and Expose Faults

DEAR MISS DIX: Don't you think that if young men and women would explain their faults to each other before marriage it would do a great deal to avert unhappy marriages and prevent divorce?

ANSWER: If lovers were disillusioned before marriage, it would undoubtedly save unhappy marriages, because it would wreck the institution of marriage altogether. Tom would never lead Sue to the altar if he had a close-up of Sue's temper and tongue, nor would Sue ever sign up in a life partnership with Tom if she had the remotest idea that he would grab all the profits and emoluments of the firm, and that she would never be able to collect the wages of the hired girl for labor as wife and mother and cook and housemaid and butler and seamstress and nurse and so on and so forth.

NOBLE THOUGHT

Of course, your plan is theoretically correct. The honest thing for every prospective bride and groom to do is to lay their cards on the table and expose all their faults and weaknesses and give the party of the other part a chance to take them or leave them.

Certainly it is but common sense for a man to tell the woman who is going to be in his power whether he is industrious or lazy, whether he is a go-getter or an idler, whether he is good-natured or irritable, and particularly what his views are regarding the status of a wife and the claim she has upon her husband's pocketbook. But probably no man in the world ever told a woman the truth about himself. Maybe he could not, even if he is so desirous, because we are so intent to cover up our faults and make such convincing alibis for them and we see that the other party is going to look to the man and women we marry.

And it is in the same way with a woman. Angelica could call her temper nerves, but underneath her permanent, her shiftness she could ramrodlike could mismanage under her veil of beauty, and by the time she got through making out her list of faults it would look like a schedule of all the most desirable virtues.

Nor would the lovers be warned

by even an honest confession of each other's faults. The thing that would later get at their nerves and tab them raw would seem scarcely a bluish seen from the distance of courtship. Then, such is the vanity of lovers that they would believe that they would be able to work miracles and make him or her into the perfect husband or wife of his or her desire. So I greatly fear that the anti-nuptial confession would be barren of practical results.

BREAKFAST IN BED

Dear Miss Dix: I am a bride and very happy, except for one thing. All the week but on Sunday my husband's breakfast so he can get off to work but on Sunday he is at home and I feel that he should cook and housemaid and butler and seamstress and nurse and so on and so forth.

DISILLUSIONED

ANSWER: For you to have a little common sense and not to be so selfish. Your part of the partnership is preparing the food that your husband wants. He does not want to move right into the kitchen on your part of the job that he will do his work and you will do his work one day of the week. Why should you expect him to do yours?

MARRIED 5 YEARS

Dear Dorothy Dix: My husband and I have been married five years for a woman many years older than he, whom he married because he was rich. He does not love her—he just needed money. Now she has died leaving him her estate and he wants to marry him again. I have no children. What would you advise?

MRS. H. T. B.

ANSWER: Why not? If you are not but not just a creature for any woman to tie to. If you marry him, make him settle some of the poor deceased lady's money on the girl who has just died, and goes broke he will desert you again.

Your Baby And Mine

By MYRTLE MEYER ELKROD

Once a child gets past the age of infancy it is amazing how much the parent expects of him. Mothers tell me how much is the child of 18 to 20 months. They say he cries all the time, he won't eat his vegetables, he never wants to come to bed or go to sleep and he won't play well with other children. What they never want to come to bed or go to sleep and he won't play well with other children. What they never want to come to bed or go to sleep and he won't play well with other children.

Once a child gets past the age of infancy it is amazing how much the parent expects of him. Mothers tell me how much is the child of 18 to 20 months. They say he cries all the time, he won't eat his vegetables, he never wants to come to bed or go to sleep and he won't play well with other children. What they never want to come to bed or go to sleep and he won't play well with other children.
